

COIN50 Daily Summary

The COIN50 index had a daily return of 3.53%, underpinned by positive performance across various sectors. For instance, the Media and Entertainment sector posted a notable return of 0.069259% for the day. Meanwhile, the index saw a contrarian 30-day return of -4.15%, despite the impressive 90-day return of 73.62%. This suggests a mixed trading environment with short-term headwinds but long-term bullish sentiment.

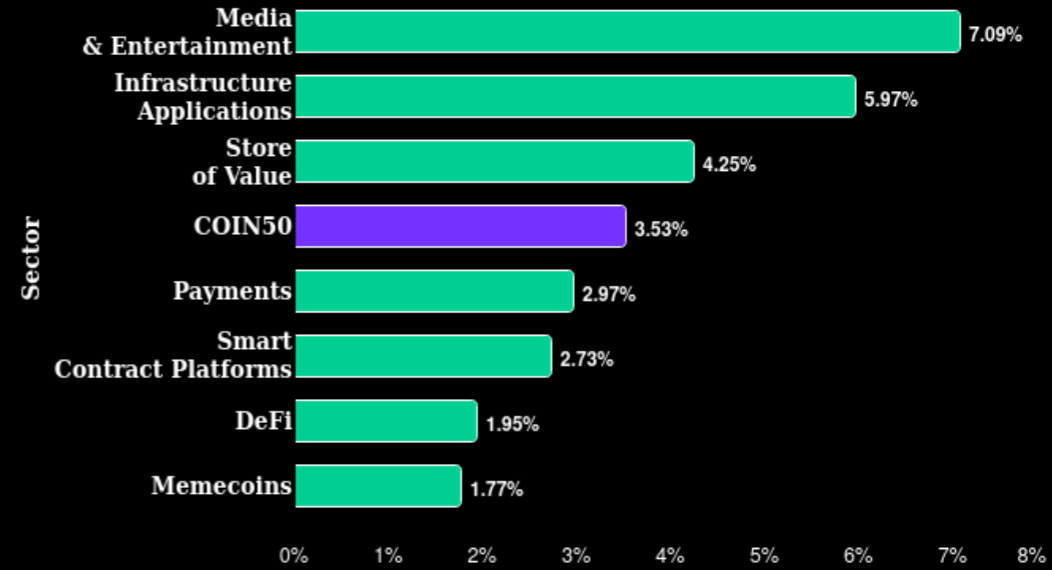

Key highlights:

- 1. Top Performer:** The token INJ emerged as a top performer, delivering a robust return of 12.51%.
- 2. Largest Decline:** Conversely, the token HNT struggled, finishing the day down -1.80%.
- 3. Noteworthy Movements:** Other tokens generating notable movements included SAND and RENDER, which posted returns of 11.26% and 10.81% respectively.

Performance

Index and Sector Performance

Top 5 Tokens by Daily Return

It is not possible to invest directly in an index. Exposure to an asset class represented by an index is available through investable instruments based on that index. MarketVector does not sponsor, endorse, sell, promote or manage any investment fund or other investment vehicle that is offered by third parties and that seeks to provide an investment return based on the performance of any index. MarketVector makes no assurance that investment products based on the index will accurately track index performance or provide positive investment returns. MarketVector is not an investment advisor, and it makes no representation regarding the advisability of investing in any such investment fund or other investment vehicle. A decision to invest in any such investment fund or other investment vehicle should not be made in reliance on any of the statements set forth in this document.

Investments into crypto currencies and/or digital assets are subject to material and high risk including the risk of total loss. The calculated prices may not be achieved by investors as the calculated price is based on prices from different trading platforms. Furthermore, an investment into crypto currencies and/or digital assets may become illiquid depending on the trading platform or investment product used for the specific investment. Investors should carefully review all risk factors disclosed by the relevant trading platform or in the product documents of relevant investment products.

Prospective investors are advised to make an investment in any such fund or other vehicle only after carefully considering the risks associated with investing in such funds, as detailed in an offering memorandum or similar document that is prepared by or on behalf of the issuer of the investment fund or other vehicle. Inclusion of a security within an index is not a recommendation by MarketVector to buy, sell, or hold such security, nor is it considered to be investment advice.

All information shown prior to the index launch date is simulated performance data created from backtesting (“Simulated past performance”). Simulated past performance is not actual but hypothetical performance based on the same or fundamentally the same methodology that was in effect when the index was launched. Simulated past performance may materially differ from the actual performance. Actual or simulated past performance is no guarantee for future results.
