MarketVector™ Equity Indexes will be calculated weekdays between 01:00 and 22:40 CET (10:00 to 17:00 Sydney Time for the MVIS® Australia Indexes) and the index values are disseminated to data vendors every 15 second. Indexes are disseminated on days when either the US equity market is open for trading or at least one of the index components of the relevant indexes is available for trading. MVIS® Australia Indexes are disseminated on days when the Australian equity market is open for trading. MarketVector™ Digital Assets Indexes are calculated 24/7.
